### Department of Logopedics and Applied Linguistics

#### Prerequisites to be able to study in the programme and the yearly intake:

Candidates may apply for admission to the course leading to the Degree of Bachelor of Arts in *Logopedics and Audiology*, if they are in possession of the Matriculation Certificate in Polish Language and Biology or Physics or Mathematics. Only best notes are taken into account. Also qualifying conversation is required. A pronunciation, linguistics and communicative skills and a motivation are evaluated. The yearly intake is 45 students.

#### The content of the studies and the degree:

1. The three-year BA degree programme in SLT and audiology is geared towards the preparation of generic speech-language pathologists and audiologists. This course offers the initial education of these practitioners (180 ECTS, 2220 hrs). It is possible to work as a SLT after BA in preschools, schools and special education centers.
2. The two-year MA degree programme in SLT and audiology is geared towards the preparation of advanced skills in SLT and audiology. This course gives rights to work in medical settings (health centers), rehabilitation centers, hospitals and private practice (120 ECTS, 1065 hrs).
3. Postgraduate studies in *neurologopedia* or *surdologopedia* (for MA only) are necessary to become a specialist in medicine (285 hrs of studies and one year of clinical work)
4. After completing the M.A. degree it is possible to continue with PhD studies in logopedics.
