4. Abstract

The Dutch Speech and Language Educational Institutes have a consistent platform. The heads of these 8 departments meet approximately 6 times per academic year. Conferences for all SLT-lecturers are being organised every second year. A common Competency Profile and a National Transcript have been developed. In collaboration with the Dutch Society for Speech and Language Therapy and Phoniatrics various themes are being adapted. A National Thesis Award exists since 2006. Admission at all departments is arranged on national level. Mutual admission tests are being accepted. Many common projects and ambitions lead to improvement of the education of the Dutch SLT.

6. Motivation letter: Please, justify why this is a good example of good practice

Collaboration in this matter leads to avoiding inventing the wheel on every university for its own. Working with colleagues who have the same aims makes our work very efficient. Moreover gives this way of working us the opportunity to reflect on our plans, aims and decisions.

NL will use this platform for exploitation of NetQues-results.

Thanks for your help and contribution!
